

INVITATION

The Doctoral Committee of Medical Sciences at the University of Debrecen kindly invites you to the public defence of the doctoral (PhD) dissertation entitled

Uncovering the role of thiamine transporters in the thermogenic activity of human adipocytes

by

Boglárka Ágnes Vinnai

held in
Lecture Hall “A”

**Department of Internal Medicine, Faculty of Medicine, University of Debrecen,
on 1 September 2026, at 13:00**

The defence shall be chaired by: Prof. Gábor Szabó, PhD, DSc
Official opponents: Dr. Beáta Lontay, PhD, DSc
Dr. Dávid Kovács, PhD

The dissertation may be looked into in the University of Debrecen Electronic Archive (<https://dea.lib.unideb.hu>). Everyone present may participate in the public defence, and may submit written remarks in advance.

The Doctoral Committee of Medical Sciences, University of Debrecen
