

## Student declaration for entering exam/practice/grade offering test

Date and time of attendance:.....year.....month.....day.....hour..... minute

Have you been abroad in the last month? ( ) yes ( ) no

If yes: date of return to Hungary: ..... (day) ..... (month)..... (year)

arriving from: .....

Examination institution:.....

Name of student:.....

Social security number (TAJ): .....Place and date of birth:.....

Body temperature measured today at home: ..... C

### 1. Complaints, symptoms:

Do you have **RECENT** (started within 2 weeks)

|  |         |        |
|--|---------|--------|
| fever or subfebrility ( $\geq 37,5$ C) | ( ) yes | ( ) no |
| headache, weakness, muscle aches       | ( ) yes | ( ) no |
| nausea, diarrhea                       | ( ) yes | ( ) no |
| dry cough                              | ( ) yes | ( ) no |
| shortness of breath                    | ( ) yes | ( ) no |
| runny nose, sore throat                | ( ) yes | ( ) no |
| loss of smell/taste                    | ( ) yes | ( ) no |

*If any of the above symptoms are clearly known and are not of infectious origin (e.g. allergy, migraine, Crohn's disease, etc.), they should not be considered. Diarrhea is defined as the emptying of at least 3 loose stools in 24 hours.*

### 2. Epidemiological history

Have you been in contact with a patient with a confirmed coronavirus infection in the last 14 days?

( ) yes ( ) no

Have you been in contact in the last 14 days with a person who needs to be quarantined for suspected coronavirus infection?

( ) yes ( ) no

Do you currently need to be quarantined for suspicion of coronavirus?

( ) yes ( ) no

Have you been abroad in the last 14 days?

( ) yes ( ) no

3. **Microbiological tests:** Have you had a coronavirus test since the onset of the symptoms?

a, no

b, yes, namely            1. time and result of the test    2. time and result of the test

nasopharyngeal swab

**Declaration:** I declare, under the penalty of perjury, that the information contain herein is accurate.

.....

signature of the student

**Assessment:**

The questionnaire is only valid on the day it is signed. Departments may also decide to take students' temperature on spot.

During the pandemic a separate questionnaire should be filled in (every day) and submitted before the start of each practical / block practice / seminar / examination. The questionnaire may be archived by the department online as a picture, or as a paper-based document.

If the answer to any of the questions is yes, or a body temperature higher than 37.5 C was measured, the student cannot be admitted to examination/practice/grade offering test. *(If any of the above symptoms are clearly known and of non-infectious origin (e.g. allergy, migraine, Crohn's disease, etc., they should not be considered. Diarrhea is defined as the emptying of at least 3 loose stools in 24 hours.)*

**If a microbiological test has been performed and the student has some symptoms or positive epidemiological findings, or there are circumstances justifying individual assessment, the primary care provider (GP) must be contacted in advance regarding the student's admission to examination (appointment should be made by phone). If needed, the physician may refer the student to an infectologist or request an infectological consultation.** In case of severe complaints, students must contact (in advance, over the phone) their primary care provider or the emergency room.

For details see the document entitled "**Information for students on protective measures to be taken by students during the COVID-19 pandemic**".
