

Declaration for entering the clinics, health care and social institutions

Dear Students,

We would like to inform you that immunity certificate is replaced by vaccination certificate from 1 May 2022. Students of the Faculty of Medicine, Faculty of Dentistry and Faculty of Pharmacy will be able to certify their immunity to coronavirus by vaccination certificate from that day.

More information on vaccination certificate is available at the following page: [link](#)

If you are not eligible for a vaccination certificate due to the lack of vaccination, you can take the vaccine against coronavirus here:

University of Debrecen, Clinical Center, Ambulatory Care Center; 11-17 Bethlen street, Debrecen (Debreceni Egyetem Klinikai Központ, Járóbeteg Szakellátási Központ; [Debrecen, Bethlen u. 11-17.](#))

The form for declaring your vaccination status is open again. Those, who did not complete it earlier, can do it until 6 February 2022, 12:00 noon.

In your Neptun you need to go to "Administration/Requests" menu, "Available request forms" tab, then click on "Declaration for entering the clinics, health care and social institutions" form!

Please note that those students who do not complete the declaration form, but are vaccinated must appear 15 minutes before the start of each lessons/examination and must provide proof of vaccination together with their passport to the tutor.

By submitting the declaration, you confirm the validity of its content under penalty of perjury. You are aware that submitting an untrue statement or failing to report changes to the contents of this statement is regarded as a misdemeanor, based on the regulations in Act LVIII. of 2020, and is punishable. You accept that submitting an untrue statement or failing to report changes to the contents of this statement is a disciplinary offense and might result in the termination of your student status.

The authenticity of the statements can be checked by the Faculty!

Best regards,
Registrar's Office
