

FACULTY OF MEDICINE QUALITY POLICY STATEMENT

The Faculty of Medicine of the University of Debrecen (FMUD) is a key institution in health professional training in the region.

In accordance with the contents of the Mission Statement, the heads of the organizational units belonging to the FMUD express their commitment to a modern method of management.

This method involves the regulated management and continuous improvement of education and research in order to improve the satisfaction of participants in those processes. The quality policy reflects the relationship between research and learning and teaching; furthermore, it takes into account the national context of the operation of the Faculty and its university context and strategy.

The main goals of the leadership are as follows:

1. aligning the quality of research activities and education in medical sciences with international standards, taking into account the possibilities of the FMUD.
2. providing opportunities for the professional development of employees.

In order to achieve the above, the leadership of the Faculty considers it important to

- employ staff with outstanding professional knowledge,
- encourage training and further training,
- recognize quality work,
- use resources optimally, and
- operate a modern information system.

By declaring the quality policy, the leaders of the FMUD declare their responsibility and intention to establish their own certified, modern quality management system, to maintain this system, to continuously evaluate and improve the achieved results, and to ensure the operating conditions in accordance with national tertiary education law and other legal regulations in force at any time. They ensure that the above happens in accordance with the requirements of the Accreditation Committee and the guidelines of the Ministry of Innovation and Technology on quality assurance in tertiary education, taking into account the European standards of quality assurance in tertiary education.

The management of the FMUD wants to raise general awareness that quality performance is the key to both the success of the institution and the welfare of its staff.

Debrecen, March 1, 2021

László Mátyus, M.D., PhD, D.Sc.
Dean of Faculty of Medicine
University of Debrecen
